

FLU Information 2018

It is never too late to vaccinate against Flu!

**“The single best way to protect against the flu is to get vaccinated each year.
Everyone 6 months and older should get vaccinated.”**

The Flu as an unpredictable viral disease and can affect us all when it is least expected. The best recommended strategy to fight the Flu according to the Public Health office, CDC (Centre for Disease Control and Prevention), is to get vaccinated every year.

For a complete list, of “Who Should Get Vaccinated Against Influenza” see <https://www.cdc.gov/flu/about/season/current.htm>

The immunity from vaccination declines over time and the Flu vaccine needs to be repeated again every year. Please find more information on Flu strategy and prevention tips on <http://www.cdc.gov/flu/protect/preventing.htm>
