## REPORT on ISB WATER test 2017

Dear ISB Community,

The ISB Health Office conducts water tests at the beginning of every school year, following water safety standards in guidelines required by the Serbian Law, which determine food and water standardized quality measures. The water test results for the new SY 2017/2018 have now been undertaken and comply with conditions defined by the statute of Hygiene Confirmation/European Standards of Drinkable Water. The expert's opinion given by Public Health "Batut" Institute laboratory, on analyses of two randomized samples on all requested parameters, show that the water at ISB is safe for drinking.

As always, I stand ready and at your service.

Sincerely,

*Dr. Lilly*

ISB Physician
